

Staff Accounts for the New System

Please prepare the names and email addresses of the people for each role

Swift Cargo is moving all its work — receiving in China, shipping, Dar warehouse, invoices, payments and customer service — into one new system.

Every staff member will have **their own personal login**, so the system records who did what. To create these accounts we only need each person's **full name** and **work email address**. Passwords are not needed on this form — each person will set their own when they first sign in.

How work moves: China Warehouse receives & loads → Dar Warehouse checks in → Accountant prices & invoices → Customer Support informs the customer → Accountant confirms payment → Dar Warehouse releases the cargo. Manager and Boss supervise every step.

1. Boss / Administrator

Full control

Owner of the system with the final say on everything.

- Sets company details, VAT, storage charges and invoice terms
- Manages the bank, mobile money and cash accounts printed on invoices
- Creates staff accounts, sets roles and salaries, removes people who leave
- Reviews the audit log — every action, who did it and when

FULL NAME

WORK EMAIL

2. Manager

Supervision & approvals

Supervises the whole operation and approves decisions.

- Follows the daily command centre: cargo in China, at sea and in Dar, money owed, alerts
- Approves credit, pricing, claims and the monthly payroll
- Reconciles payments and costs against bank and cash records
- Reviews what each container earned against what it cost; runs monthly reports

FULL NAME

WORK EMAIL

3. Accountant (Finance)

All money

Responsible for pricing, invoices, payments, costs and the books.

- Confirms prices when cargo arrives in Dar and issues invoices (TZS / USD)
- Records and verifies customer payments; follows up unpaid bills
- Issues pickup notes for paid cargo; manages credit
- Records every expense with receipt; counts the office cash; prepares payroll

FULL NAME

WORK EMAIL

4. China Warehouse Manager

Guangzhou

Receives goods in Guangzhou, measures them and loads containers.

- Records each consignment: customer, shipping mark, packages, weight, CBM, photos
- Prints labels and delivery notes
- Loads cargo into containers, records vessel and seal number, marks departure
- Reports damaged or unidentified goods

FULL NAME

WORK EMAIL

5. Dar Warehouse Manager

Dar es Salaam

Receives containers in Dar and hands cargo to the right person.

- Records container arrival and checks every consignment against China's figures
- Reports missing or damaged cargo with photos
- Keeps warehouse locations up to date
- Releases cargo only by scanning the customer's pickup note, only to the receiver

FULL NAME

WORK EMAIL

6. Customer Support

Customer service

The customer's point of contact.

- Answers customer questions and tracks their cargo, container and arrival date
- Registers customers and keeps their details correct
- Handles quote, pickup and booking requests from the website and China sourcing
- Reminds customers about payments and informs them about any cargo issue

FULL NAME

WORK EMAIL

Additional staff (if more than one person per role)

Optional

Role	Full name	Work email
